Career Objective

Motivated and detail-oriented B. Tech CSE (Data Science) student with skills in Python, SQL, Power BI, and Data Analysis. Seeking an entry-level opportunity in a reputed organization where I can apply my analytical, technical, and problem-solving skills to contribute to organizational growth while continuously learning and developing professionally.

Projects

1. IMDB Movie Data Analysis (1920–2024)

- Analysed 10,000+ movie records using Python, Pandas, and NumPy.

2. Student Information System (SIS)

- Developed a full-stack system using Python, HTML, CSS, JavaScript.

3. Customer Purchase Analysis

- Performed EDA, segmentation, and trend analysis on regional sales data.

4. Power BI Dashboards

- Diabetics Patient Analysis Dashboard
- Apple Product Sales Analysis Dashboard
- Instagram Post Analysis Dashboard

Internship Experience

Data Analyst Intern – Aneja Sons, Platinum Store – Roorkee, Uttarakhand | 8 weeks (Jun, 2025 – Jul, 2025)

- Collected and cleaned 50,000+ sales records to prepare datasets for reporting.
- Designed 3+ interactive Power BI dashboards for customer insights and product performance.
- Conducted trend analysis to identify the most profitable brands, supporting business strategy.
